

PREVENTION IS BETTER THAN CURE !

AUTOMATIC HAND SANITIZER

NEW PATENTED SYSTEM

SPECIFICATIONS

MODEL	HANDTIDOTE H1
SIZE	Height : 361 mm Width : 256 mm Depth : 210 mm
WEIGHT	3,5 Kg (empty tank)
POWER	50 W
VOLTAGE	230 V / 50 Hz
LOUD LEVEL	Lower 60 dBa
TECHNICAL FEATURES	Spraying dose: 0.75 ml / sec Adjustable spraying time : 1sec / 2sec / 3sec Tank capacity : 2 liters (approx. 1250 uses) Liquid level view Safety lack of liquid Reset : automatic pump reload Inside lighting : simultaneously when spraying
MATERIAL	ABS hood Standard colors : white aluminium (RAL 9006) or black (RAL 9005) Available in all RAL range (according to ordered quantity)

PROFITS

IN ALL ASPECTS, A VERY GOOD INVESTMENT...

A uniform distribution/coverage on hands by spraying allows:

>> A better efficiency of the product on all the zones of the hand.

Indeed, "high-risk areas": the interdigital spaces, are more difficult to access.
Only a spraying allows to reach effectively these zones.

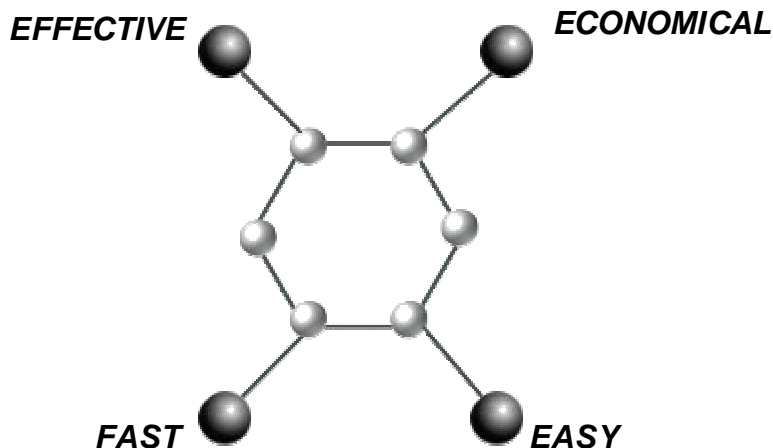

>> A better speed of execution.

The spraying reduces appreciably gestures or manipulations of hands (as the frictions for example between both hands).

>> An economic consumption of the hydro-alcoholic product.

The spraying allows to control the distribution of the product thanks to a very precise dosage.

>> An ease and a simplicity of use.
